### REMARKS

CIA GUEST SPEAKER PROGRAM

8 APR 1981

*Talk to me about this - the  
last is long enough for 4 or 5 years  
we should keep a shorter lead  
on this*

**MEMORANDUM FOR:** Director of Central Intelligence

**THROUGH:** Deputy Director of Central Intelligence  
Deputy Director for Administration

**FROM:**   
Director of Training and Education

**SUBJECT:** CIA Guest Speaker Program

STAT

1. The CIA Guest Speaker Program was inaugurated in October 1973 to provide intellectual stimulus to Agency employees through contact with the thinking of scholars, officials, and other experts outside the Agency. The program is held about six times a year in the CIA auditorium on the second Tuesday of the month, from 1500 to 1615. All employees are invited to the lectures, which are unclassified and off the record, and tickets are also distributed to other agencies of the Intelligence Community. Since October 1973, there have been 46 guest speakers, including Edward Bennett Williams, attorney; William F. Buckley, author; Kelly Johnson, father of the U2; David Rockefeller, Chairman of the Board, Chase Manhattan Bank; Herman Wouk, author; and Jack Anderson, syndicated columnist. The most recent speaker on 15 December 1980, was Malcolm Toon, former Ambassador to the Soviet Union.

2. Although the program has varied widely in attendance and content, we regard it as a success. Attendance has ranged from 175 to 600 (an overflow). Average attendance has been about 300. The program has been conducted as a voluntary activity, with no effort to drum up audiences. Intelligence Community attendance for the best known speakers has been good. It seems that the size of the audience depends upon the renown of the speaker.

3. Proposed Criteria for the Program:

a. Subject matter should have a significant bearing on the intelligence profession or on international affairs.

**SUBJECT: CIA Guest Speaker Program**

b. It should affect, or be of concern to, a broad cross section of Agency personnel--or at least several Agency components--in order to warrant inviting a large audience.

c. The person making the presentation should be well known and genuinely knowledgeable about the subject matter. In general, we seek the kind of speaker who is at the forefront of his field.

d. The speaker should be effective in communicating with a large audience representing different backgrounds.

e. The speakers will be drawn from the academic world, foundations, the business community, the media, Congress, and the executive departments of government.

f. The speaker will be paid \$500 honorarium, plus round-trip, economy-class transportation. U.S. Government employees do not receive an honorarium.

g. Management of the Program will be by the Office of Training and Education (Special Programs Officer).

h. Official invitations will be extended by letter from the DCI. In advance of a letter, the Special Programs Officer of the Office of Training and Education (OTE) is authorized to extend a telephonic invitation in the DCI's name.

i. Each proposed speaker undergoes an internal indices check by the Office of Security before being invited.

j. The names of members of Congress, representatives of the media, or politically sensitive individuals will be submitted to the DCI for prior approval.

k. Distribution of tickets will be via component Training Officers to each Directorate and the DCI area via OTE to the Intelligence Community. Seats are held for ticket holders until five minutes prior to the lecture, at which time non-ticket holders will be admitted.

SUBJECT: CIA Guest Speaker Program

4. You will be given the opportunity to meet with the speaker in advance of the lecture, and the opportunity to introduce the speaker.

5. Recommendation: We ask that you approve this memorandum and the attached list. We welcome any additions, deletions, or comments.
